PROJECTS

Personal Portfolio Website

- Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript.
- Created modern UI sections including hero banner, skills, projects, and contact section.
- Implemented SEO basics such as meta tags, heading structure, image alt text, and performance optimization.
- Deployed the project on Netlify with mobile-friendly responsive design.

BlogManager

- Developed a responsive blog management platform with client and admin dashboard interfaces.
- Implemented features like blog creation, draft saving, search/filter, and blog approval workflow.
- Added profile management, login/register system, and responsive dashboard layouts using HTML, CSS, and JavaScript.
- Used localStorage for frontend data handling and dynamic content rendering.

URL Shortener

- Built a frontend-based URL shortener interface with clean dashboard-style layout.
- Added URL validation, copy-to-clipboard functionality, and responsive form handling.
- Implemented dynamic short link generation concept using JavaScript and localStorage.
- Designed modern UI cards and interactive components for better user experience.
